

Residential and Rehabilitative Care

To Our Friends Roz, Russ & the Members of the Rhinebeck Chamber
Music Society Outreach Committee, 5/20/14

Once again you have provided our residents with
a wonderful afternoon of superb music by way of the SAGAD
Trio! Our thanks and appreciation goes beyond my just
saying it ~

Music is a "miracle medicine" that elicits responses
from residents who rarely react/respond in spite of the
various approaches/techniques/interventions we may try. It is
truly heartwarming to see the incredible "awakening" that
seems to take place as a result of the incredible performers/
performances you've afforded the Thompson House.

Thank you - each & every one of you who make
this happen for us! On behalf of the residents & their loved
ones, thank you for caring & promoting the quality of life for our
folks!

Sincerely, Sue Close, Rec. Mgr.
